April 18, 2024

TO: Madison County Board of Supervisors Orange County Board of Supervisors Towns of Gordonsville, Madison, and Orange Citizens of Madison, Orange

As Chairman of Rapidan Service Authority (RSA) and representing its Board of Members, it gives me great pride to present you with our " Annual Comprehensive Financial Report" for the year ended 2023.

As you leaf through the report you will discover a wealth of information that is unlike the typical audit report prepared for a municipality. In addition to the various tables, charts and graphs found in this report, of special note is the letter of transmittal prepared by the General Manager and his staff that presents the highlights for the year. Another source of information that the reader will find valuable is the Management's Discussion and Analysis (MD&A) which immediately follows the Independent Auditor's Report.

Included in the report you will see the award of the Government Finance Officers Association's Certificate of Achievement for Excellence in Financial Reporting for RSA's 2022 Annual Report. RSA has been a consistent recipient of this nationally recognized award. The value of this Certificate cannot be understated, as we have found, in securing funding for our construction programs. RSA shall also submit this report for consideration by GFOA. The Certificate is only valid for one (1) year and therefore each report must be reviewed annually.

I thank you for taking the time to review our Annual Report and please feel free to forward any comments or questions to your representative on the Board of Members. You are invited to join us at any time at our regular monthly meetings.

Sincerely,

R. Mark Johnson Chairman, Board of Members Rapidan Service Authority

April 18, 2024

Board of Members Rapidan Service Authority Ruckersville, Virginia

The Annual Comprehensive Financial Report of the Rapidan Service Authority ("RSA" or "the Authority") for the fiscal year ended December 31, 2023, is hereby submitted. This report has been prepared, on what we believe to be, in conformity with the reporting and accounting standards promulgated by the Government Finance Officers Association's (GFOA), Governmental Accounting, Auditing, and Financial Reporting for Enterprise Funds of Governmental Units, with such modifications as apply to our status as an independently chartered corporation.

Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Authority. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of the operations of the Authority. All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included.

I would also invite you to review the Management's Discussion and Analysis (MD&A) immediately following the Independent Auditors' Report. This analysis provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

## Organization

RSA is organized under the auspices of Orange and Madison Counties. Each County's Board of Supervisors appoints representatives to serve on the RSA Board of Members. Orange County appoints three members, and Madison County appoints two members. The Authority's chartered responsibility in its geographical area is the provision of water, sewer, and solid waste services. These activities are reported in their entirety in this report.

The Authority has determined that it is a jointly governed organization of the Counties of Orange and Madison. These governmental entities do not have an ongoing financial responsibility to the Authority. The Authority is perpetual and no participating government has access to either its resources or surpluses, nor is any participant liable for the Authority's debts or deficits. The Authority also has the ability to finance its capital projects through user charges or the sale of revenue bonds. The Authority is not a component unit of any of the participating governments.

## **Services Provided**

RSA provides service through approximately 339 miles of water and sewer mains along with five water and wastewater treatment plants within its chartered service area. Water and sewer service in Madison County is available primarily within the Town limits and its immediate surroundings. In Orange County, RSA provides water service along Route 15 and to the Town of Gordonsville as well as the Route 20 airport area. Sewer service is also available in the Town of Gordonsville. In the eastern end of Orange County, water and sewer service is provided in Lake of the Woods, Wilderness Shores, Somerset Farms and along the Route 3 corridor.

RSA maintains its water and sewer facilities through its own operation and maintenance program. Other responsibilities include constructing extensions, upgrading existing facilities, and inspecting water distribution and sewer collection systems installed by developers. RSA maintains all contributed and constructed facilities.

## **Economic Condition & Outlook**

The two Counties that comprise RSA's service area are typically rural with a majority of the population commuting to jobs outside of the Counties. Both counties are expected to see some future growth. The Weldon Cooper Center for Public Service is estimating a 2% increase in population from 2020 to 2030 for Madison County and Orange County, the largest county in RSA's service area, having a growth rate of 6% from 2020 to 2030.

## Accounting and Budgetary Controls

RSA maintains its accounting records on an accrual basis according to generally accepted accounting principles. Inherent in the Authority's accounting system is a system of strong internal controls. Internal accounting controls are designed to give reasonable, but not absolute assurance that:

- Assets are adequately safeguarded against loss from unauthorized use, and
- Financial records are reliable for preparing financial statements and maintaining accountability.

This concept of reasonable assurance for internal accounting control recognizes that the costs associated therein should not exceed the benefits and that the evaluation of the controls includes the judgment of management. We believe the Authority's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is exercised at the departmental level, with the understanding that budget amounts (both revenues and expenses) are projections of anticipated service levels; expenses over budget estimates are examined to ensure that they are properly related to the delivery level of Authority services in the applicable accounting period.

## **Relevant Financial Policies**

There were no financial policies that had a significant impact on our current period's financial statements, that hasn't had an impact on any other periods. With that said, the Authority's careful eye on spending and its enforcement of collection policies have helped minimize, to some degree, the effects of the difficult economy all businesses and government agencies have been forced to face.

## **General Operations**

Water and sewer revenues make up 95% of the RSA's operating revenue in 2023. Water revenue decreased by 24.6% from 2022 and sewer revenue decreased by 4.9% from 2022. For the year, total operating revenue decreased \$1.56 million or 14% from 2022. The decrease was due to the exit of Greene County from the Authority.

In 2023, RSA's operating expenses totaled approximately \$10.61 million. Operations and maintenance accounted for 60% of operating expenses, with depreciation representing 25% of the total and administration accounting for 15%. For the year, RSA's total operating expenses decreased by \$333 thousand, or 3% from 2022.

FY 2023, RSA incurred \$1,039,350 in operating loss as compared to an operating gain of \$185,495 in 2022. The decrease was due to the exit of Greene County from the Authority.

## **Debt Administration**

Debt service coverage (gross revenue less direct operating expenses) was 5.13 times the annual debt service. Section 5.2 of the Authority's Revenue Bonds requires coverage of 1.15. Principal payments made on long-term indebtedness was \$646,667 in FYE 2023 and \$636,667 in FYE 2022. Debt payments in 2023 totaled \$797,974. At December 31, 2023, long-term outstanding debt totaled \$5,036,107 which includes compensated absences.

## Independent Audit

State statutes and the Authority's bond documents require an annual audit by independent certified public accountants. The accounting firm of Robinson, Farmer, Cox Associates performed the audit for 2023. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Uniform Guidance. Since the Authority was not the recipient of any Federal funds this year, a Single Audit was not required.

## **Certificate of Achievement for Excellence**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Rapidan Service Authority for its comprehensive annual financial report for the fiscal year ended December 31, 2022. RSA has received this prestigious award 39 of the last 40 years. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and accordingly, we are submitting it to the GFOA to determine its eligibility for another certificate.

## Acknowledgments

I would like to thank the Board of Members for their dedicated and conscientious management of the Authority's operations; their efforts are reflected in the information that follows.

Respectfully submitted,

Divinity of Clemons GM/RSA

Timothy L. Clemons General Manager

Government Finance Officers Association

## **Independent Auditors' Report**

To the Board of Directors Rapidan Service Authority Ruckersville, Virginia

## **Report on the Audit of the Financial Statements**

#### Opinion

We have audited the accompanying financial statements of the business-type activities of Rapidan Service Authority as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of Rapidan Service Authority as of December 31, 2023, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Rapidan Service Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Responsibilities of Management for the Financial Statements: (Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Rapidan Service Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards* and the *Specifications for Audits of Authorities, Boards, and Commissions* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards* and the *Specifications for Audits of Authorities, Boards, and Commissions* we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Rapidan Service Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Rapidan Service Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Rapidan Service Authority's basic financial statements. The accompanying other supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## **Report on Summarized Comparative Information**

We have previously audited the Rapidan Service Authority's financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated May 9, 2023. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2022, is consistent, in all material respects, with the audited financial statements from which it has been derived.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2024, on our consideration of Rapidan Service Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Rapidan Service Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Rapidan Service Authority's internal control over financial reporting and compliance.

Hobinson, Jarmer, Car Associates Charlottesville, Virginia

## To the Board of Members Rapidan Service Authority

As management of the Rapidan Service Authority ("RSA" or "the Authority"), we offer readers of our financial statements this narrative, overview, and analysis of the financial activities of the Authority for the fiscal year ended December 31, 2023. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 6 through 9 of this report.

## **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the Authority's basic financial statements. Since the Authority is engaged only in business-type activities, its basic financial statements are comprised of only two components: 1) enterprise fund financial statements and 2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

## Enterprise fund financial statements

The enterprise fund financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on the Authority's assets, deferred outflows of resources, and liabilities. Net position is reported as the sum of assets and deferred outflows of resources less liabilities. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net Position presents information showing how the Authority's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, (e.g., earned but unused vacation leave).

The basic enterprise fund financial statements can be found on pages 22 through 25 of this report.

## **Notes to Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The Notes to the Financial Statements can be found on pages 26 through 42 of this report. Note 5 presents certain required supplementary information concerning the Authority's progress in funding its obligation to provide pension benefits to its employees.

## **Financial Highlights**

• The assets and deferred outflows of resources of the Authority exceeded its liabilities at the close of the most recent fiscal year by \$52,347,268 (net position). Of this amount, \$9,840,973 (unrestricted net position) may be used to meet the Authority's ongoing obligations to customers and creditors.

## Financial Highlights: (Continued)

- The Authority's deferred outflows of resources decreased by \$4,859.
- The Authority's total net position decreased by \$14,227,388.
- The Authority's restricted assets decreased \$176.6 thousand to \$453.7 thousand during the current fiscal year.

## **Financial Analysis**

## Net Position

The Authority's net position decreased by \$14.2 million during the fiscal year 2023, which represents a 21.4% decrease from the prior fiscal year ending net position. At December 31, 2023, total net position was \$52.35 million as compared to \$66.57 million the previous year.

|   |     | Condensed Statements of Net Position |    |            |    |              |          |  |

## Net investment in capital assets

The Authority uses capital assets to provide services to its customers; consequently, these assets are not available for future spending. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

## Financial Analysis: (Continued)

## Net Position: (Continued)

## Net investment in capital assets: (Continued)

In a comparison of 2023-2022, the net position invested in capital assets, net of related debt was \$42.51 million at December 31, 2023 and represents 81% of total net position. The net position invested in capital assets decreased by 21.5% or \$11.63 million from 2022.

## Unrestricted net position

Unrestricted net position is used by the Authority to finance day-to-day operations without restrictions established by debt covenants or other requirements. Unrestricted cash and investments consist of government securities, bank deposits and other cash-equivalents.

In a comparison of 2023-2022, unrestricted net position decreased \$2.60 million during the fiscal year 2023 to \$9.84 million, an 20.9% decrease from the prior year. Unrestricted net position is 19% of the total net position.

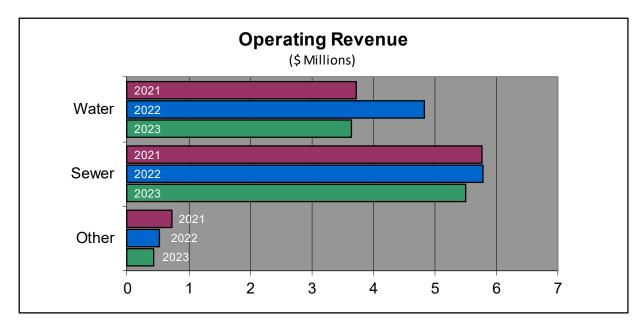

## Changes in Revenues, Expenses & Changes in Net Position

While the Statements of Net Position reflect the change in the Authority's financial position, the Statements of Revenues, Expenses and Changes in Net Position provide insight as to the nature and source of those changes. A comparison of the current fiscal year's actual and budgeted income is found on Schedule 1 under Supporting Schedules of the Financial Section.

The following table summarizes changes in revenues and expenses between fiscal year 2023 and 2022.

|  | Condensed Statements of Revenues,<br>Expenses & Change in Net Position |                 |            |    |                        |           |  |

## Financial Analysis: (Continued)

## Changes in Revenues, Expenses & Changes in Net Position: (Continued)

## **Operating revenues**

Operating revenue consists of water and sewer service charges, penalties, and late fees as well as other operating revenues.

In a comparison of 2023-2022, operating revenues decreased by \$1.56 million or -14% to \$9.57 million. Water and sewer revenue decreased \$1.47 million or -13.2% whereas other revenue, primarily new service installations, decreased \$87.6 thousand or -1% from the year ending 2022. The decrease in revenue was due to losing the Greene County service area in June of 2023.

## Nonoperating revenues & capital contributions

Nonoperating revenues consist of availability fees, investment income and other nonoperating revenues. Investments made by the Authority are tightly regulated as to the type of investments that can be made in the financial markets. Please see Note 6 in the Notes to Financial Statements for a discussion as to the statutes governing the investment of Authority funds. Capital contributions from developers include water and sewer mains, pump stations, and other infrastructure from developers and governmental entities. Contributions are recognized upon the assignment of the assets and fluctuations from year to year are due to the number of completed projects in a given year.

In a comparison of 2023-2022, other nonoperating revenue increased by \$627.48 thousand or 167.2% to \$1,002,710. Availability fees were up \$915 thousand or 55% to \$2.59 million. Capital contributions for 2023 totaled \$4.8 million, compared to \$992.5 thousand in 2022.

## **Operating & nonoperating expenses**

Operating expenses consist of personnel services, contractual services, materials and supplies, utilities, insurance, and other operating expenses that keep the Authority running on a day-to-day basis. Nonoperating expenses consist of interest expense and other costs that are incurred that do not fall under operating expense. A comparison of the current fiscal year's actual and budgeted expenses is found on Schedule 2 under Supporting Schedules of the Financial Section.

## Financial Analysis: (Continued)

## Changes in Revenues, Expenses & Changes in Net Position: (Continued)

## **Operating & nonoperating expenses: (Continued)**

In a comparison of 2023-2022, operating expenses decreased \$280.79 thousand or -3.4% to \$7.91 million at the end of 2023. Depreciation expense totaled \$2.750 million at the end of 2023. Interest expense was down \$31.8 thousand or -17.4% to \$151.3 thousand at year end. The decrease in expenses was due to losing the Greene County service area in June of 2023.

## **Capital Assets and Debt Administration:**

## Capital assets

The Authority's investment in capital assets consists of a broad range of capital assets, such as land, buildings, water and sewer lines, water storage facilities, water and wastewater plants as well as pump stations, machinery, equipment, computers and vehicles. More information on the Authority's capital assets is presented in Notes 7 and 8 of the Notes to the Financial Statements.

As of December 31, 2023, capital assets net of accumulated depreciation was \$25.52 million, a decrease of \$33.91 million or -57.1% from FYE 2022. As of December 31, 2022, capital assets net of accumulated depreciation was \$59.4 million, a increase of \$145.68 thousand or 0.2% from FYE 2021.

The following table summarizes the Authority's capital assets, net of accumulated depreciation, and the changes therein for the years ended December 31, 2023 and 2022.

|                          | _   | Capital Assets, Net of Accumulated Depreciation |                      |                        |          |  |

## Capital assets

Major capital asset activity for the current fiscal year included:

| Current Year Projects:        | 2023         |
|-------------------------------|--------------|
|                               |              |
| East Water System Upgrades    | \$ 3,075,177 |
| East Sewer System Upgrades    | 490,631      |
| Madison Water System Upgrades | 129,142      |
| Madison WTP Intake Upgraded   | 166,370      |

## **Capital Assets and Debt Administration: (Continued)**

## Long-Term Debt

Long-term debt is used by the Authority to finance capital projects due to growth in the system, aging equipment and lines or changes in regulations. The Authority has two VRA bond issues outstanding which are rated A+ from Standard & Poor's. Other long-term obligations of the Authority include employee accrued leave. More detailed information on the Authority's long-term liabilities is presented in Note 4 of the Notes to the Financial Statements.

At the end of the current fiscal year, the Authority had \$4,597,877 in bonds and notes outstanding compared to \$5,305,644 last year, a 13% decrease.

## Long-Term Trends:

## **Connection Growth**

New water connections over the last 10 Fiscal Years are located in Table 8 of the Statistical Section of this report. The annual average growth of water customers has been 1.19% over this 10-year period.

## **Revenue and Expense Growth**

Presented in Tables 2, 3 and 4 of the Statistical Section is the trend information on Revenues and Operating Expenses. With the growth that has been seen over the last 10 years and the expected growth in the future, the Authority is diligent in anticipating the needs of its customers.

## Long-Term Debt

The Authority has been involved in major construction projects and has used long-term debt to finance the majority of its capital asset growth. The low interest rate environment and the ability of the Authority to participate in the state's loan and grant programs have resulted in low cost debt. Table 13, the Table of Pledged Revenue Coverage for the Last 10 Fiscal Years is presented in the Statistical Section. Bond Covenants require the Authority to maintain Debt Service Coverage Ratio of 1.15.

## **Cash and Cash Equivalents**

The Authority's use and management of its cash accounts are predicated on the following criteria: self-funding of smaller construction and of our larger operations and maintenance projects to reduce the Authority's dependency on the bond/loan market, a requisite operations and maintenance reserve fund, unforeseen contingencies, and finally, to enhance favorable financing terms with its creditors.

## **Requests for Information:**

This financial report is designed to provide a general overview of the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department at P.O. Box 148, Ruckersville, Virginia 22968.

**Basic Financial Statements**

Notes to Financial Statements At December 31, 2023

#### NOTE 1-BASIS OF PRESENTATION:

In the interest of efficient water quality management, the Authority organized under the auspices of Orange and Madison Counties as a jointly governed organization. The Authority is responsible for acquiring, financing, constructing and maintaining facilities for the improvement, treatment, storage and transmission of potable water, and for the interception, treatment and discharge of wastewater for the Counties.

### **Financial Reporting Entity**

The Rapidan Service Authority was established for the purposes stated above. The participating governments are the County of Orange and County of Madison. These governmental entities do not have an ongoing financial responsibility to the Authority.

The Authority's governing body is composed of three members from Orange County and two members from Madison County appointed by each of the Counties.

The Authority is perpetual and no participating government has access to its resources or surpluses, nor is any participant liable for the Authority's debts or deficits. The Authority also has the ability to finance its capital projects through user charges or the sale of revenue bonds.

Based on the above representations, the Rapidan Service Authority has been determined to be a jointly governed organization of the County of Orange and County of Madison. The Authority is not a component unit of any of the participating governments.

## NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

<u>Basis of Accounting</u> - The accounts of the Rapidan Service Authority are maintained on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded as liabilities when incurred, without regard to receipt or payment of cash. All Authority budgets are prepared on the accrual basis.

<u>Financial Reporting</u> - The financial statements of the Authority are prepared as an "enterprise" commercial unit to conform to financial reporting practices as recommended in Water Utility Accounting published jointly by the Municipal Finance Officers Association and The American Water Works Association.

<u>Budgetary Control</u> - Although a budget is not legally required to be adopted, a fiscal year budget is prepared for management and fiscal planning purposes. The budget is adopted on a basis consistent with generally accepted accounting principles. Budgetary control is exercised at the departmental level. Any changes to the budget as adopted require Board approval.

## Notes to Financial Statements At December 31, 2023 (Continued)

## NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

### **Basic Financial Statements**

The Authority is only engaged in business-type activities, it is required to present only the financial statements required for enterprise funds. For the Authority, the basic financial statements and required supplementary information consist of:

- Management's Discussion and Analysis
- Enterprise fund financial statements
  - Statements of Net Position
  - Statements of Revenues, Expenses, and Changes in Net Position
  - Statements of Cash Flows
  - Notes to Financial Statements

<u>Cash and Cash Equivalents</u> - For purposes of the statement of cash flows, the Authority considers cash and cash equivalents to include cash on hand, cash on demand deposit and short-term investments purchased with an original maturity of three months or less.

<u>Investments</u> – Money market investments, participating interest-earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interestearning investment contracts (nonnegotiable certificates of deposit (CDs)) and external investment pools are measured at amortized cost. All other investments are reported at fair value. The Authority invests in the Local Government Investment Pool and the Virginia Investment Pool, all which are considered cash equivalents.

<u>Accounts Receivable</u> - Accounts receivable consist of water and sewer billings. The provision for uncollectibility was \$100,031 of gross receivables of \$729,195 in 2023.

<u>Capital Assets and Depreciation</u> - Capital assets are defined by the Authority as assets with an initial and individual cost of more than \$1,000 and a useful life of over 2 years.

## NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

### Capital Assets and Depreciation: (Continued)

Depreciation of utility capital assets was computed by the straight-line method using the following estimated useful lives as a basis:

| Items                                  | Years   |
|--|---------|
| Source of supply structures            | 50      |
| Water treatment building               | 50      |
| Distribution reservoirs and standpipes | 50      |
| General structures and improvements    | 50      |

No depreciation is taken on assets in the year placed in service. Depreciation expense for the years ended December 31, 2023 amounted to \$2,702,066.

<u>Legal Compliance</u> - As required by Board resolution, the Authority maintains restricted cash funds to account for meter deposits. These accounts are disclosed in the Statements of Net Position.

The Borrower covenants and agrees that it will fix and collect rates, fees and other charges for the use of and for services furnished or to be furnished by the System, and will from time to time revise such rates, fees and other charges (so that in each Fiscal Year the Net Revenues Available for Debt Service will equal at least 115% of the amount required during the Fiscal Year to pay the principal of and interest on the Local Bonds and all other indebtedness of the Borrower) including, without limitation, indebtedness under leases which are treated as capital leases under generally accepted accounting principles, payable from Revenues. (If, for any reason, the revenues are insufficient to satisfy the foregoing covenant, the Borrower shall within ninety days adjust and increase its rates, fees and other charges or reduce its Operation and Maintenance Expenses so as to provide sufficient revenues to satisfy such requirement.)

## NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

## Legal Compliance: (Continued)

"Net Revenues Available for Debt Service" means the revenues less amounts necessary to pay Operation and Maintenance Expenses.

"Operation and Maintenance Expenses" mean the costs of operating and maintaining the System determined under generally accepted accounting principles, exclusive of: (i) interest on any debt payable from Revenues, (ii) depreciation and other items not requiring the expenditure of cash, (iii) any amounts expended for capital replacements, repairs and maintenance not recurring annually or reserves therefore, and (iv) reserves for administration, operation and maintenance occurring in the normal course of business.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Authority are charges to customers for sales and services. The Authority recognizes availability fees as capital contributions. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

<u>Interest on Indebtedness</u> – Interest costs of the Authority are treated as nonoperating expenses. All interest on indebtedness will be expensed as a nonoperating expense.

<u>Prepaid Items</u> – Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the enterprise fund financial statements.

Inventories - Inventories are stated at cost, and cost is determined on the first-in, first-out basis.

Bond Issuance Costs - Costs of issuing indebtedness are expensed when incurred.

<u>Compensated Absences</u> – For employees with 0-5 years of service, annual leave is accrued at the rate of one day per month and sick leave at ½ day per month. Employees with over 5 years of service receive 1-¼ days per month annual leave and .83 days per month sick leave. Sick leave max payout is 250 hours. Annual leave max payout is 480 hours. All leave is charged as an expense in the year earned.

| Liability For              | <br>2023                 | <br>2022                 |

| Total Compensated Absences | \$<br>438,230            | \$<br>439,215            |

## NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

<u>Restricted Assets</u> – Certain resources of the Authority are set aside for the repayment of customer deposits and are classified as restricted assets on the Statement of Net Position because their use is limited by customers. Other assets are restricted as required per bond agreements.

## Deferred Charge on Refunding:

In fiscal year 2023, the Authority amortized \$4,859 of deferred refunding on revenue bonds. The deferred charge on refunding remaining at December 31, 2023 is \$3,985.

## Net Position:

Net Position is the difference between a) assets and deferred outflows of resources and b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

## Net Position Flow Assumption:

Sometimes the Authority will fund outlays for a particular purpose from both restricted (e.g., restricted bond) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Authority's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

## Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Authority has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. For more detailed information on these items reference the related notes.

## Notes to Financial Statements At December 31, 2023 (Continued)

## NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

### Deferred Outflows/Inflows of Resources: (Continued)

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Authority has one item that qualifies for reporting in this category. A certain item related to leases are reported as deferred inflows of resources. For more information on this item, reference the related notes.

#### <u>Leases</u>

Rapidan Service Authority leases various assets requiring recognition. A lease is a contract that conveys control of the right to use another entity's nonfinancial asset. Lease recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases.

#### Lessor

The Authority recognizes leases receivable and deferred inflows of resources. At commencement of the lease, the lease receivable is measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectible amounts. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, less lease payments received from the lessee at or before the commencement of the lease term (less any lease incentives).

## Key Estimates and Judgments

Lease accounting includes estimates and judgments for determining the (1) rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Authority uses the interest rate stated in lease contracts. When the interest rate is not provided or the implicit rate cannot be readily determined, the Authority uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease and certain periods covered by options to extend to reflect how long the lease is expected to be in effect, with terms and conditions varying by the type of underlying asset.

## NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

## Leases: (Continued)

Key Estimates and Judgments: (Continued)

- Fixed and certain variable payments as well as lease incentives and certain other payments are included in the measurement of the lease receivable.
- The Authority monitors changes in circumstances that would require a remeasurement or modification of its leases. The Authority will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

#### **Comparative Amounts:**

Comparative amounts for the prior year are presented for informational purposes only.

#### NOTE 3-UTILITY PLANT IN SERVICE:

The Rapidan Service Authority has acquired the "capital assets" contained in its operating system from two different sources, contributions in aid of construction and projects financed by the Authority. Property, plant and equipment purchased are stated at historical cost. Donated property and similar items and property received in a service concession arrangement are recorded at acquisition value prevailing at date of donation. In accordance with generally accepted accounting principles, it was necessary for the Authority to capitalize these expenditures and record depreciation on such assets over their useful lives. The value of the construction projects was ascertained from the accounting records.

However, the value of the contributions in aid of construction which consist of donations or contributions in cash, services or property from corporations, individuals and others for the construction and extension of water and sewer facilities was determined by the General Manager of the Authority with the assistance of the Authority's consulting engineers, using acquisition value at date of donation as basis for valuation.

# NOTE 4-LONG-TERM LIABILITIES: (CONTINUED)

#### Prior-Years Defeasance of Debt:

In prior years, the Authority defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Authority's financial statements. At December 31, 2023, there were no bonds outstanding that are considered defeased.

# Other Postemployment Benefits

The Authority does not offer postemployment benefits to its employees and, therefore, has not recorded a liability for such benefits required to be reported under GASB 75.

#### Compliance with Legal Debt Coverage

Section 5.2 of the Authority's revenue bond agreements requires gross revenue less direct operating expenses over the annual debt service of 1.15. The Authority was in compliance as of December 31, 2023.

# NOTE 5-RETIREMENT PLAN:

The Authority adopted the "Rapidan Service Authority Retirement Plan" a defined contribution retirement plan in January 1986. The plan rolled over to and has been administered by ICMA-RC since 2004. The Authority will match up to 6.0% of employee's regular earnings if the employee elects to make a contribution. Vesting begins after three years of service and employee accounts are fully vested after seven full years of service. The Authority has authorized the RSA Board to establish and amend all plan provisions.

The total payroll for all Rapidan Service Authority employees for 2023 was \$2,529,233. The payroll for those covered by the plan was \$1,569,825.

# Notes to Financial Statements At December 31, 2023 (Continued)

# NOTE 5-RETIREMENT PLAN: (CONTINUED)

In 2023 the Rapidan Service Authority contributed \$45,884 for its covered employees or 2.92% of the covered payroll. The employees contributed \$106,874, or 6.81% of their covered payroll. Employees may elect to contribute in excess of 6.0% of their regular salaries (excluding overtime) although Rapidan Service Authority will not match that portion. There are no loans from the plan to the Authority.

# NOTE 6-DEPOSITS AND INVESTMENTS:

#### **Deposits**

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the <u>Code of Virginia</u>. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

# NOTE 6-DEPOSITS AND INVESTMENTS: (CONTINUED)

#### **Investments**

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper that has received at least two of the following ratings: P-1 by Moody's Investors Service, Inc.; A-1 by Standard & Poor's; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

# **Custodial Credit Risk (Investments)**

The Authority does not have an investment policy addressing custodial credit risk.

The Authority's investments at December 31, 2023 were held by the Authority or in the Authority's name by the Authority's custodial banks.

# **Credit Risk of Debt Securities**

The Authority does not have an investment policy addressing credit risk of debt securities.

The Authority's rated debt investments as of December 31, 2023 were rated by Standard & Poor's using Standard & Poor's rating scale.

| Authority's Rated Debt Investments - 2023                                       |              |                  |                |  |  |  |  |  |

\* Weighted average maturity in years

#### Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Authority has measured fair value of the Virginia Investment Pool at the net asset value (NAV).

#### **Redemption Restrictions**

VML/VACO Virginia Investment Pool allows the Authority to have the option to have access to withdraw funds twice a month, with a five day period notice. Additionally, funds are available to meet unexpected needs such as fluctuations in revenue sources with one time outlays (disasters, immediate capital needs, state budget cuts, etc.).

#### **External Investment Pool**

The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP is an amortized cost basis portfolio. There are no withdrawal limitations or restrictions imposed on participants.

#### **Restricted Cash and Cash Equivalents**

Restricted cash and cash equivalents represents customer deposits.

# Notes to Financial Statements At December 31, 2023 (Continued)

#### NOTE 7-CAPITAL ASSETS:

Details of changes in capital assets for the year ended December 31, 2023 are as follows:

|   | -         | Balance<br>January 1,<br>2023                  | Increases                                   | Decreases                                     | Balance<br>December 31,<br>2023          |

#### NOTE 9-RISK MANAGEMENT:

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction, of assets; errors and omissions; injuries to employees; and natural disasters. The Authority carries commercial insurance for all of these risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes to Financial Statements At December 31, 2023 (Continued)

#### NOTE 10-LEASES RECEIVABLE:

On Jan 1, 2022, the Authority recorded an initial lease receivable and deferred inflow of resources of \$708,030, as the present value of the future minimum rent payments expected to be received during the lease term. In fiscal year 2023, the Authority recognized lease and interest revenue in the amount of \$185,774 and \$6,546, respectively. A description of the leases is as follows:

| Lease Description | End Date   | Remaining Lease<br>Term (in months) | Payment<br>Frequency | Discount<br>Rate | Ending<br>Balance |
|-------------------|------------|-------------------------------------|----------------------|------------------|-------------------|
| Water Tower       | 4/30/2025  | 28 months                           | annual               | 1.82%            | 27,433            |

|                   |            |                                     |                      | Total \$         | 244,882           |

#### NOTE 11-UPCOMING FINANCIAL REPORTING PRONOUNCEMENTS:

Statement No. 100, Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62, provides more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability for accounting changes and error corrections. The requirements of this Statement are effective for fiscal years beginning after June 15, 2023.

Statement No. 101, Compensated Absences, updates the recognition and measurement guidance for compensated absences. It aligns the recognition and measurement guidance under a unified model and amends certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023.

Implementation Guide No. 2021-1, Implementation Guidance Update --2021, with dates ranging from reporting periods beginning after June 15, 2022 to reporting periods beginning after June 15, 2023.

Implementation Guide No. 2023-1, Implementation Guidance Update --2023, effective for fiscal years beginning after June 15, 2023.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

# Notes to Financial Statements At December 31, 2023 (Continued)

#### NOTE 12-SPECIAL ITEMS: TRANSFER OF OPERATIONS:

Under an intergovernmental agreement between Rapidan Service Authority and the County of Greene, Virginia, dated June 22, 2023, the County withdrew from the water and sewer system service agreement that was in place. The purpose and intent of this agreement is for the County to assume control over the water and sewer operations and services previously provided by Rapidan Service Authority. As a result of this agreement, Rapidan Service Authority transferred the following assets to the County, which are recorded in the financial statements

|   | _       | Carrying Values |
|---|---------|-----------------|
| Transferred Assets (Net)                                  | _       |                 |
|   | Å       | F 27 C 00       |
| Land  | \$      | 537,689         |
| Buildings   |         | 113,206         |
| Infrastructure  |         | 18,267,934      |
| Equipment   | -       | 523             |
| Total conital access                                      | Ś       | 10 010 252      |
| Total capital assets                                      | ې_<br>۲ | 18,919,352      |
| Net Position of Transferred<br>Water and Sewer operations |         |                 |
| Net investment in capital assets                          | \$      | 18,919,352      |

As a result of this agreement, the Authority also paid \$1,350,000 of cash.

#### NOTE 13-PENSION PLAN:

#### **Plan Description**

All full-time, salaried permanent employees of the Authority are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

In February 2023, the Authority established its own plan through VRS.

Notes to Financial Statements At December 31, 2023 (Continued)

# NOTE 13-PENSION PLAN: (CONTINUED)

The System administers three different benefit structures for covered employees – Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire age 50 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

# Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees. Under Plan 2, average final compensation is the average of the employee's 1.85% for sheriffs and regional jail superintendents. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

# NOTE 13-PENSION PLAN: (CONTINUED)

# Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u>, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

# Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The Authority's contractually required employer contribution rate for the period February 2023 to June 30, 2023 was 3.17% of covered employee compensation.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Authority were \$19,170 the period ended February 1 to June 30, 2023.

Data internally compiled from Rapidan Service Authority

# Fact Sheet

The Rapidan Service Authority (RSA) presently employs 39 personnel and maintains two administrative offices. The West office is located on Route 33 in Ruckersville. Located on Route 3, the East office is one-half mile west of the Lake of the Woods subdivision. The General Manager's administrative staff includes a Director of Administration, Director of Operations, West Manager, East Manager, four (4) Customer Service Representatives, and Accountant. Engineering staff includes the Director of Projects and Engineering Technician. The West Manager and East Manager oversee the maintenance of the water and wastewater systems. RSA East and West maintain separate storage facilities for inventory and equipment.

In Greene County, RSA owns and operates the Greene Water Treatment Plant which has a capacity of 1,150,000 gallons per day (gpd) as well as a county-wide distribution system. The county-wide distribution system consists of four water storage tanks: a 1,000,000 gallon elevated tank on Preddy Creek Road, a 1,000,000 gallon steel ground tank located on Amicus Road west of Quinque, a 300,000 gallon steel ground storage tank on Gilbert Road, and a 112,000 gallon concrete ground tank in Stanardsville. The distribution mains are PVC and DI pipe sized from 2" and smaller up to 20", plus some cast iron pipe in Stanardsville, and equal approximately 81 miles of mains with 394 fire hydrants are dispersed throughout the system. The Greene County water system serves over 3,000 connections in 47 subdivisions and the Town of Stanardsville. The water treatment plant consists of two identical 575,000 gpd Neptune Microfloc Plants placed into service in December 1988 and October 2001. In June 2023, Greene County assumed operations and ownership of the Greene system.

RSA owns and operates a 180,000 gpd wastewater treatment plant in Stanardsville that is a land application system with two primary aerated lagoons and a 120 day storage pond. The collection system consists of a mix of low pressure sewer, using home grinder pump stations and a gravity system, with five major pump stations. In 2006 RSA began operating the Rapidan Publicly Owned Treatment Works (POTW) that has a capacity of 0.6 million gallons per day which features an oxidation ditch, two clarifiers, two digesters, a sludge centrifuge, UV disinfection and an aerated discharge to the Rapidan River at Route 29. The Rapidan POTW collection system has seven major pump stations and serves the Ruckersville area. There are approximately 1,065 sewer customers in Greene County with 43 miles of sewer mains. In June 2023, Greene County assumed operations and ownership of the Greene system.

RSA owns and maintains the water distribution system on Route 15, between Orange and Gordonsville. The Town of Orange supplies the Route 15 system water via contract. In 2001, Orange County approved RSA to operate the Thomas E. Lee Industrial Park water system. In 2002, Orange County installed a 1,000,000 gallon storage tank with 12" and 16" mains between the new tank and the Lee Industrial Park with RSA operating the new system. The RSA Route 15 line consists of about 13 miles of PVC and asbestos-cement pipe and a 500,000-gallon steel ground storage tank located on the Sedwick's farm on Route 15 south of Orange. This system serves 118 customers including the Lee Industrial Park, EDM, MPS, the Town of Gordonsville, and includes 28 fire hydrants.

The Route 20 water system east of Orange is supplied by a well at the storage tank site on Porter Road and a well on May Lane. It was deeded to RSA in 1993, contains approximately 5 miles of line, a 150,000-gallon steel elevated storage tank, a 30 gpm well at the Porter Road tank site, 42 gpm well at the May Lane site and 22 fire hydrants. RSA installed a corrosion inhibitor system in 1993. This system serves 152 customers.

From November 1, 1984 through June 30, 1990, RSA contracted with the Town of Madison to operate their water and sewer treatment plants. On March 1, 1993, RSA became the owner of these systems. The Madison water plant has a rated capacity of 250,000 gpd and serves 289 connections. The water distribution system contains 8 miles of mains with a 500,000 gallon concrete ground tank. The 75,000 gallon steel elevated tank was removed in 2003. White Oak Lake reservoir is owned and maintained by RSA. The wastewater treatment plant has a licensed capacity of 80,000 gpd. In 2003, an additional concrete digester and three new solids drying beds were added to the wastewater treatment plant. The gravity sewer system includes 3 miles of 8" concrete & PVC pipe, two pump stations and serves 176 customers.

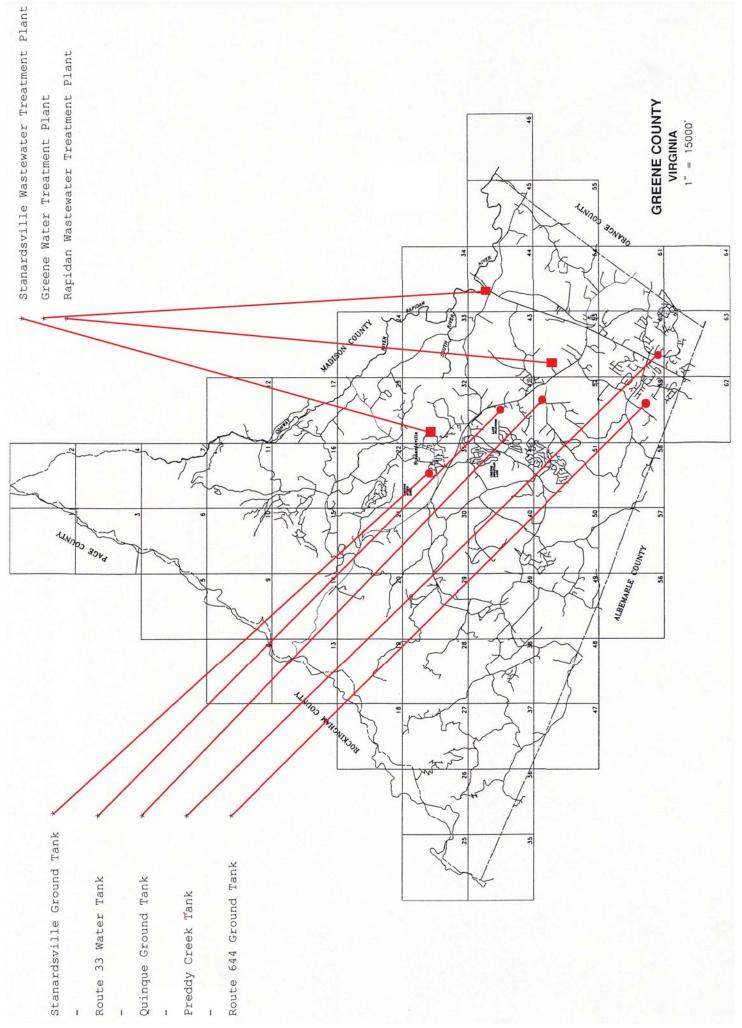

In August 1985, the Town of Gordonsville transferred ownership of the Gordonsville sewer treatment plant and collection system to RSA. The plant was under a State Water Control Board order to upgrade and meet more stringent discharge limitations. A new Wastewater Treatment Plant, costing three million dollars, was put into service in July 1988 with a licensed capacity of 667,000 gpd. The new plant utilizes all facets of the old plant, but adds two storage ponds, three pump stations, approximately forty-five acres of spray terraces using overland flow treatment, and a final discharge. A post aeration system was added in 1994. In 2003, the 12" gravity sewer interceptor line was relined from Main Street to High Street and in 2006 Faulconer Street's sewer main was relined. The collection system consists of approximately 18 miles of PVC and concrete main, with approximately 190 manholes and three pump stations.

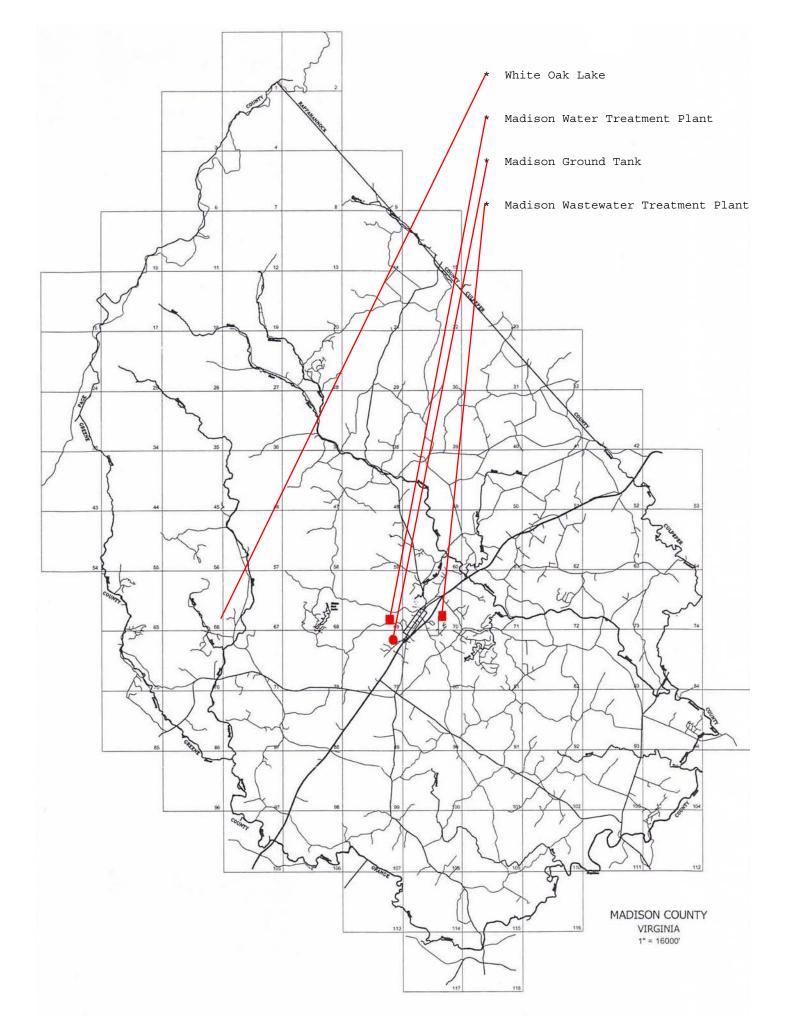

On November 1, 1987, RSA acquired ownership of the Lake of the Woods (LOW) water and sewer system. The original LOW system has been expanded and now includes Wilderness Shores, Somerset Farms, Germanna Community College, Germanna Heights and commercial development along Route 3. The RSA East system is located 15 miles west of Fredericksburg, Virginia on State Route 3.

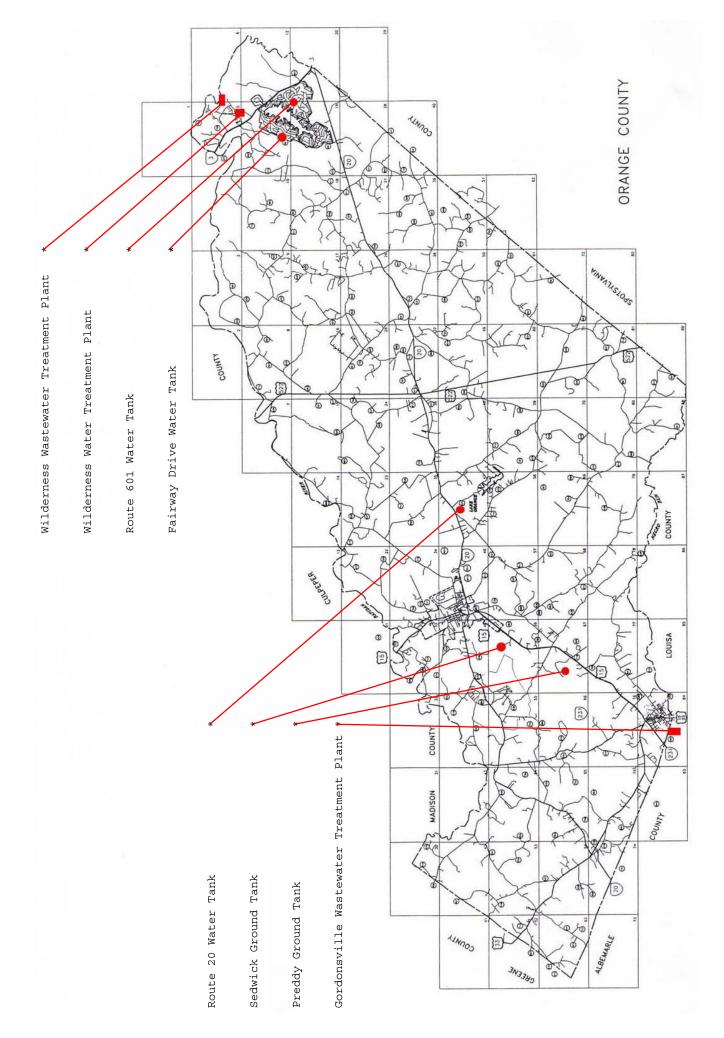

The East water system consists of 2½" to 12" PVC and AC mains and 190 fire hydrants. Water storage consists of two 500,000 gallon elevated steel tanks on Flat Run Road, and a 250,000 steel elevated tank in Wilderness Shores subdivision. In 1991, a 1.6 million gpd water treatment plant was put into service, consisting of dual train Neptune Microfloc treatment units. The water source is the Rapidan River. The plant is connected to the LOW subdivision via 12' PVC transmission main along the Route 3. In 2002, RSA installed 12" PVC water main along Lakeview Parkway from Fairfax Lane to Gold Valley Road to enhance the transfer of water throughout the subdivision. In 2004, a new 500,000 gallon concrete clearwell tank and high service pump station were placed in service at the Wilderness Water Treatment Plant. In 2012, Orange County installed a new 500,000 gallon elevated water tank on the middle school site and upgraded 4,700 feet of 12" water main on Confederate Drive and Yorktown Boulevard. The water system consists of approximately 77 miles of water mains. There are approximately 5,083 connections on the East system including 6 subdivisions and 3 shopping centers.

The LOW sewer system consists of a vacuum collection system with 13 vacuum stations and three lift stations. The system contains 4" to 10" vacuum mains, 10" concrete gravity mains, 3" to 8" PVC force mains and approximately 1,600 holding tanks. Sewage is held in these tanks until the vacuum pumps collect and transport the waste to the treatment plant. The previously existing 250,000 gpd treatment facility was in service until 1992. RSA also upgraded the trunk collection mains including 6" to 10" PVC, and 69 plug valves. The sewer system consists of approximately 95 miles of sewer mains. In 1992 and 1993, all thirteen vacuum stations were completely renovated. RSA continues to upgrade the vacuum system every year. Station R was constructed to transfer wastewater from the old plant to the new plant. The Wilderness Shores 15" gravity collection system was installed and the Germanna College sewer pump station and force main was completed. In 1999, Somerset Farms contributed a 12" water main and various water distribution mains along with a sewer pump station, 8" force main and 8" gravity mains to serve this 320-lot subdivision. In 1999, a new liner was installed in the original treatment pond on Route 3. This facility currently acts as a backup holding pond in the event of a system failure at the primary pump station. In 2000, the plant was re-rated to 715,000 gpd based on existing treatment. In 2001, vacuum stations in LOW were upgraded and equipped with primary and backup pumps. There are a total of 13 pump stations inside the Lake of the Woods development and 10 outside of Lake of the Woods with a total of 5,118 connections.

In 2012, RSA completed the Wilderness wastewater treatment plant upgrade with an expanded capacity to 2.0 MGD, using state of the art treatment processes. This upgrade was required to meet the stringent Chesapeake Bay regulations for total nitrogen and total phosphorus removal. The treatment processes include a three train, five stage Bardenpho process contained in cast-in-place concrete tanks with common walls and individual tank mixers and fine bubble diffusers plus dechlorination for the two aerobic zones. Three Clarifiers capture the solids followed by a rapid mix flocculation tank, and a continuous backwashing tertiary sand filtration system. Finally, the effluent is disinfected using a hypochlorite solution and aerated by coarse bubble diffusers before being discharged to the Rapidan River. The treatment's captured solids are thickened and sent to two aerobic digesters in concrete tanks and pressed through a new plate and frame press.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* 

To the Board of Directors Rapidan Service Authority Ruckersville, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the business-type activities of Rapidan Service Authority as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the Rapidan Service Authority's basic financial statements and have issued our report thereon dated March 29, 2024.

# **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Rapidan Service Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rapidan Service Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Rapidan Service Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

# **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Rapidan Service Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
